

CLA City Website Project OS

Master Prompt and Operating Rules for Codex / Copilot / ChatGPT
Version 1 - July 2026

Purpose

This document is the source-of-truth operating system for rebuilding and maintaining the CLA City / Church LA website. Every coding session must begin by reading this file before making changes. The goal is to preserve the good work already done while removing fake, outdated, or unverified content.

Core Instruction

Do not restart the website from scratch. The current project already has a strong bilingual static structure, a premium visual system, and a complete page set. The work now is to clean, verify, simplify, and refine.

Non-Negotiable Truth Rules

- Truth over aesthetics. Never invent church history, ministries, service times, staff, events, stats, testimonials, giving methods, or legal claims.
- If content is not verified by the owner, official CLA material, or the approved source-of-truth file, remove it or mark it for owner input. Do not make it sound real.
- The website may be bilingual, but the Sunday service is Russian only. Never state that English services exist, that services are bilingual, or that Russian translation is available.
- Every content edit must be applied to both /en/ and /ru/ equivalents unless the task explicitly says otherwise.
- Do not add placeholder people, fake testimonials, fake sermon cards, fake ministry emails, fake event schedules, fake stats, or invented fundraising claims.

- Do not use Instagram or Telegram unless the owner confirms the link and the Source of Truth is updated.
- Do not use school@cla.city. Use only russianspeakingchurch@gmail.com unless another address is verified.
- Do not claim 501(c)(3), tax receipts, tax deductibility, dedicated funds, or donation designations unless confirmed by the owner.

Content That Must Be Removed or Quarantined Until Verified

- Instagram links across all pages, unless confirmed active and added to Source of Truth.
- events.json claims of Sunday 10:00 AM English and 12:00 PM Russian services.
- Wednesday Bible study, Friday youth night, Wednesday prayer nights, or any recurring ministry schedule unless verified.
- Homepage showcase text such as "Serving Los Angeles since 2010" unless officially confirmed.
- Testimonials with names such as Marina K., James T., Sokolov Family, Denise R., Alex P., Sarah M. unless they are real and approved.
- Media page live-stream claim unless YouTube livestream is confirmed.
- Gallery placeholder blocks; either use real verified images or remove the gallery section.
- Resources page claims: Bible in One Year exists on the website, sermon notes downloads, prayer guide downloads, family devotions, detailed Jesus School courses, durations, levels, and Wednesday study.
- Give page claims: 501(c)(3), annual tax receipt, tax-deductible language, fund dropdown, Building Fund, Global Missions, KidsZone designations, and cosmetic amount selector if it does not affect the donation page.
- Visit page claims: free parking, coffee after service, welcome desk assistance, background-checked KidsZone team, KidsZone desk location, and "Russian translation available."

Design Direction to Preserve

- Keep the current premium warm visual direction: cream background, amber accent, cinematic dark sections, large rounded cards, soft depth, and editorial layout.

- Keep modular CSS architecture: variables, reset, typography, layout, components, animations, utilities, responsive, styles entry point.
- Keep mobile-first behavior and do not break the existing language switcher, mobile menu, scroll reveal, FAQ accordion, map embed, or responsive grids.
- Design should feel modern, warm, trustworthy, and church-appropriate. Avoid random flyer-style sections and avoid fake polish that hides unverified content.
- Hero and showcase sections may stay only if their copy is truthful and church-appropriate. Remove portfolio/demo language such as "After the hero" or design-process phrases visible to visitors.

How Codex / Copilot Must Work

- Read this OS and the Content Source of Truth before making website edits.
- Read only the files necessary for the requested task. Do not audit the whole repo unless explicitly asked.
- Do not refactor architecture, rename files, introduce frameworks, or create build tooling unless explicitly requested.
- Do not create backup, temp, duplicate, or experimental files unless requested.
- When changing content, update EN and RU matching pages together.
- When removing fake content, prefer simple truthful copy over replacement invention.
- After edits, report only files changed, exact issues fixed, and anything still needing owner confirmation.

First Cleanup Phases

Phase	Goal	Prompt direction
1	Global truth cleanup	Remove Instagram, replace school@cla.city, fix Visit footer directions link, remove conflicting events data.
2	Homepage cleanup	Remove fake testimonials or replace with non-testimonial community section; fix 2010 claim; remove design-demo lan
3	Visit cleanup	Fix Russian-only language wording; remove unverified parking/coffee/KidsZone operational claims unless confirmed.
4	Media and Resources cleanup	Replace gallery placeholders with real images or remove; simplify resources to verified content only.
5	Give cleanup	Remove 501(c)(3), tax, fund designation, and cosmetic amount selector until confirmed.

Reusable Codex Start Prompt

Before editing anything, read CLA_City_Website_Project_OS_v1.pdf and CONTENT_SOURCE_OF_TRUTH.md. Follow them as the source of truth.
Do not invent content.
Do not read unrelated files.
Do not refactor.
Do not redesign beyond the requested task.
Update English and Russian matching files together when content changes.
Report only: files changed, exact fixes made, and remaining owner-confirmation items.

Task: [PASTE EXACT TASK HERE]

Owner Interview Still Needed Later

- Is the Instagram account official and active?
- Is Sunday livestream currently active every week?
- Is free on-site parking available?
- Is there coffee or fellowship after service?
- What exactly is KidsZone check-in and staffing process?
- Are Jesus School course names, durations, and schedules real?
- Is CLA legally a 501(c)(3), and may the site state tax-deductible giving?
- Are Building Fund, Missions, and KidsZone separate giving designations?
- Are the testimonials real, approved, and safe to publish?

Final Rule

This project succeeds when the website is honest, warm, current, bilingual, and easy for a first-time visitor to understand. Do not chase design before truth. Do not chase content volume before trust.
