

CLA Page Blueprint OS v1

Section 10 — Sermons Page Blueprint

STATUS: APPROVED

Purpose

The Sermons Page provides a dedicated space for visitors to discover, watch, and engage with biblical teaching from CLA.

Its purpose is to make sermons easy to find while encouraging spiritual growth beyond the Sunday gathering.

Primary Visitors

The Sermons Page serves:

- * Church members
- * First-time visitors exploring CLA teaching
- * People seeking biblical messages
- * People unable to attend services
- * Visitors discovering CLA online

Page Experience Goal

Visitors should understand:

- * Where to find sermons.
- * How to watch or listen.
- * What messages are available.
- * How to continue exploring biblical teaching.

Page Structure

The Sermons Page follows this hierarchy:

1. Hero Section
2. Sermon Introduction
3. Featured Sermon
4. Sermon Series
5. Sermon Library
6. Search & Filtering
7. Related Media
8. Final CTA

9. Footer

Section 1 — Hero

Component Used:

Hero System

Purpose:

Introduce the teaching ministry of CLA.

Contains:

- * Worship or teaching photography
- * Page title
- * Short introduction
- * Primary CTA

Possible CTA:

- * Watch Latest Sermon
- * Explore Messages

Hero requirements:

- * Clear
 - * Focused
 - * Christ-centered
 - * Mobile optimized
-

Section 2 — Sermon Introduction

Components Used:

- * Header System
- * Feature Section System

Purpose:

Explain the purpose of sharing sermons.

Content:

- * Biblical teaching
- * Spiritual growth
- * Encouragement
- * Continued learning

The message should focus on God's Word.

Section 3 — Featured Sermon

Components Used:

- * Sermon Component System
- * Video Component System

Purpose:

Highlight the newest or most important sermon.

Contains:

- * Thumbnail
 - * Sermon title
 - * Speaker
 - * Date
 - * Scripture reference
 - * Watch button
-

Section 4 — Sermon Series

Components Used:

- * Card System
- * Sermon Component System

Purpose:

Help visitors follow connected teachings.

Content:

- * Series title
- * Description
- * Sermon count
- * Featured image

Visitors should easily understand the teaching journey.

Section 5 — Sermon Library

Components Used:

- * Sermon Components

- * Search System
- * Pagination System

Purpose:

Provide access to previous sermons.

Possible filters:

- * Series
- * Speaker
- * Date
- * Topic
- * Scripture

The library should remain simple and organized.

Section 6 — Search & Filtering

Components Used:

- * Search Component System
- * Pagination Component System

Purpose:

Help visitors quickly find relevant messages.

Requirements:

- * Fast results
- * Clear filters
- * Helpful empty states

Section 7 — Related Media

Components Used:

- * Video System
- * Gallery System

Purpose:

Connect visitors with additional content.

Examples:

- * Worship videos
- * Events

- * Ministry stories

Section 8 — Final CTA

Component Used:

CTA System

Purpose:

Guide visitors toward deeper connection.

Examples:

- * Visit CLA
- * Join a Service
- * Explore Ministries

Photography Requirements

Sermon photography should show:

- * Teaching moments
- * Worship
- * Pastors speaking
- * Community gathering

Avoid:

- * Generic stock images
- * Artificial sermon imagery

Mobile Requirements

Mobile experience must:

- * Make sermons easy to browse.
- * Prioritize video performance.
- * Maintain readable information.
- * Provide simple controls.

SEO Requirements

Sermons Page should include:

- * Sermon titles
 - * Speaker information
 - * Scripture references
 - * Video structured data
 - * Search-friendly metadata
 - * Optimized thumbnails
-

Future Expansion

Future versions may include:

- * Podcast integration
 - * Transcripts
 - * Study guides
 - * Personalized sermon recommendations
 - * AI-powered sermon search
-

Guiding Principle

The Sermons Page should make God's Word accessible, organized, and engaging so visitors can continue growing wherever they are.
