

CLA Page Blueprint OS v1

Section 11 — Events Page Blueprint

STATUS: APPROVED

Purpose

The Events Page provides visitors with a clear overview of upcoming opportunities to participate in the life of CLA.

Its purpose is to help people discover gatherings, special events, ministry opportunities, and ways to become connected with the church community.

Primary Visitors

The Events Page serves:

- * First-time visitors
- * Church members
- * Families
- * People looking for upcoming activities
- * Visitors interested in conferences, gatherings, and special events

Page Experience Goal

Visitors should understand:

- * What events are happening.
- * When they are happening.
- * Where they are located.
- * Who they are for.
- * How to participate.

Page Structure

The Events Page follows this hierarchy:

1. Hero Section
2. Events Introduction
3. Featured Event
4. Upcoming Events List
5. Calendar View
6. Event Categories
7. Past Events (Optional)

8. Final CTA

9. Footer

Section 1 — Hero

Component Used:

Hero System

Purpose:

Introduce the events experience at CLA.

Contains:

- * Authentic event photography
- * Page title
- * Short welcoming message
- * Primary CTA

Possible CTA:

- * View Upcoming Events
- * Register Now

Hero requirements:

- * Community-focused
- * Clear
- * Visually engaging
- * Mobile optimized

Section 2 — Events Introduction

Components Used:

- * Header System
- * Feature Section System

Purpose:

Explain why events matter.

Content:

- * Community connection
- * Spiritual growth
- * Fellowship
- * Opportunities to serve

The message should invite participation.

Section 3 — Featured Event

Components Used:

- * Event Component System
- * Hero/Card Components

Purpose:

Highlight the most important upcoming event.

Contains:

- * Event image
 - * Event title
 - * Date
 - * Time
 - * Location
 - * Description
 - * Registration CTA
-

Section 4 — Upcoming Events List

Components Used:

- * Event Components
- * Card System

Purpose:

Provide an organized view of upcoming opportunities.

Each event may include:

- * Title
- * Date
- * Time
- * Location
- * Ministry category
- * CTA

Information should remain easy to scan.

Section 5 — Calendar View

Components Used:

- * Calendar Component System

Purpose:

Allow visitors to explore events by date.

Features:

- * Monthly view
- * Upcoming schedule
- * Event details
- * Navigation controls

The calendar should remain simple.

Section 6 — Event Categories

Components Used:

- * Card System
- * Ministry Components

Purpose:

Help visitors find relevant events.

Categories may include:

- * Worship
- * Prayer
- * Kids
- * Youth
- * Women
- * Men
- * Outreach
- * Conferences

Section 7 — Past Events (Optional)

Components Used:

- * Gallery System
- * Event Components

Purpose:

Show the history and impact of CLA events.

Content:

- * Photos
- * Recaps
- * Stories

Only include when it provides value.

Section 8 — Final CTA

Component Used:

CTA System

Purpose:

Guide visitors toward connection.

Examples:

- * Plan Your Visit
- * Join an Event
- * Contact Us

Photography Requirements

Event photography should show:

- * Real gatherings
- * Worship
- * Community
- * Fellowship
- * Ministry moments

Avoid:

- * Stock event images
- * Artificial representations

Mobile Requirements

Mobile experience must:

- * Make dates easy to find.
- * Keep registration buttons accessible.

- * Use simple event cards.
 - * Load images efficiently.
-

SEO Requirements

Events Page should include:

- * Event structured data
 - * Dates and locations
 - * Search-friendly titles
 - * Optimized images
 - * Clear metadata
-

Future Expansion

Future versions may include:

- * Online registration system
 - * Event reminders
 - * Calendar integration
 - * Personalized event recommendations
 - * Member event dashboard
-

Guiding Principle

The Events Page should make it easy for people to discover opportunities, join the community, and participate in the life of CLA.
